PROFILE

IT Innovation Project Manager at Red Bull, **building AI prototypes, agents and internal tools** and leading pilots for coding and business workflows. I combine **hands-on development** with product management, enterprise SaaS implementation and user adoption experience.

AI EXPERTISE

- **Agents & applications.** Custom agents, skills and plugins; MCP development and tool integration; AI features in applications; enterprise agents in the Microsoft ecosystem; agent testing and output validation.
- **Adoption & enablement.** Use case assessment, prototyping, AI adoption consulting, workflow automation, internal training and knowledge sharing.
- **Research & experimentation.** AI market trends and technology research; innovation topics and practical experiments for coding and business use cases.

EXPERIENCE

IT Innovation Project Manager

Red Bull · Jan 2026 - Present · Salzburg, Austria

- **Develop and lead AI proofs of concept and pilots** across Red Bull, combining hands-on prototyping with project coordination.
- **Build agents, API integrations and internal tools** for software development and business workflows.
- **Advise internal teams** on emerging technology opportunities and their use in business workflows.
- **Research emerging technologies** and assess potential business use cases.

IT Project/Product Manager

Red Bull · 2021 - Dec 2025 · Salzburg, Austria

- Led **development of internal products**, covering user research, roadmap planning, feature definition and adoption.
- Managed a **custom software solution** for Marketing, Operations and Legal.
- Implemented and administered **Zendesk and Bynder** across multiple use cases, with a focus on workflows and business process optimisation.
- Coordinated **cross-functional teams** through development, quality assurance and delivery.
- Acted as the **department's AI expert** alongside product and SaaS responsibilities.

EARLIER EXPERIENCE

- **Enmacc · Web Developer Intern · 2020 - 2021 · Munich.** Website development, UX/UI and promotional design, and marketing automation.
- **Orbem · Business Analyst Intern · 2020 · Munich.** Internationalisation strategy, financial modelling and customer acquisition during a four-month university project.
- **Avanade · Software Developer Intern · 2019 · Madrid.** Front-end and back-end fintech development in Agile teams, using .NET C#, JavaScript, SQL and Angular.

SELECTED PROJECTS

All projects ↗

- **Omatinta**. Omarchy plugin for AI wallpaper generation, image editing and upscaling, with fal.ai and OpenRouter integrations.
- **Zendesk applications**. Internal tools including an AI playground, an OCR file previewer and a Zendesk-SAP data validator.
- **ExtractMD**. Chrome extension that turns webpages, YouTube transcripts and Hacker News threads into Markdown.
- **Endless AI Quiz**. Learning app about AI, with curated questions, adaptive difficulty and source-backed explanations. In development.

EDUCATION

MSc in Management

Technical University Munich

- **Overall master's grade: 97/100, top 1%.**
- Specialisation in **Entrepreneurship & Technology Management**. Studies at Heriot-Watt University, Polytechnic University of Madrid and Technical University Munich.
- **Thesis:** Tesla's Robotaxi network, adoption and economic impact.

BSc in Industrial Engineering

Polytechnic University of Madrid

- Specialisation in Management.
- **Thesis:** Development of an Angular application for San Carlos Clinical Hospital.

ENGINEERING & DELIVERY

- **Software & integrations.** Build full-stack applications and internal tools, connect services through APIs, and configure enterprise SaaS. Work with cloud and serverless deployment, including Azure.
- **Product & user experience.** Turn business and user requirements into prioritised features, prototypes and usable workflows. Incorporate feedback and support product adoption.
- **Delivery & collaboration.** Plan projects, manage risks and coordinate cross-functional teams and stakeholders through delivery. Support the work with technical communication, documentation and knowledge sharing.
